- Website

User stories:

- **Sprint 1**
 - 3 - As a user, I want to be able to create an account so that I can use the platform.
 - 2 - As a user, I want to be able to sign in so I can use the app and store my information.
 - 5 - As someone looking for events, I want to be able to input a location so that I can see events in a specific area.
- **Sprint 2**

- 20 - As someone looking for events, I want to have an event feed upon opening the app so that I can browse events in my area.
- 8 - As someone looking for events, I want to be able to expand events in my feed to read more about the event details.
- 2 - As someone looking for events, I want to be able to mark an event as “attending” so that I can show the host and other users that I am attending.
- **Sprint 3**
 - 8 - As an event host, I want to be able to create events so that I can share them with other people using the app.
 - 8 - As an event host, I want to be able to see a list of the events that I have created so that I can keep track of them.
 - 8 - As someone attending events, I want to be able to see a list of the events that I am attending so that I can keep track of them.
 - 5 - As an event host, I want to be able to edit and delete events so that I can keep my created events up to date.
- **Sprint 4**
 - 8 - As someone looking for events, I want to be able to search for keywords so that I can find the events that I am looking for.
 - 3 - As a user, I want to be able to edit my profile so that I can change the way my name and profile pic appear to others.
 - 10 - As a user, I want to be able to search for and add people as “friends” so that I can connect with my friends on the app.
 - 8 - As a user, I want to be able to see the events that my “friends” are attending so that I can decide if I want to attend too.

Product Backlog

- Event recommendations based on history
- Trending events in the area
- Make a website corresponding to the app
- Report button
- Paid events
- Rating events
