Release Plan

Product Name: EventHub
Release Name: Release 1.0
Release Date: 3/7/22
Revision Number: 5
Revision Date: 3/7/22

Team Members:
Erjie Zhang
Surya Tirumalasetty
Sharon Tulman
Rachel Skrenta
David Pang

High Level Goals:
- Ability for users to create accounts and log in
- Get user's location and allow them to input a location
- Provide an event feed sorted with respect to user's location and time
- Allow users to mark an event as "attending"
- Allow users to create, edit, and delete their own events
- Provide a search feature to help users find events
- Allow users to view and edit their profile
- Provide the user a list of events they are "attending"
- Provide the user a list of events they are hosting
- Allow users to add each other as friends and see the events their friends are attending
- Notify users of friend requests, changes to event details, etc.

User stories:
- **Sprint 1**
    - 3 - As a user, I want to be able to create an account so that I can use the platform.
    - 2 - As a user, I want to be able to sign in so I can use the app and store my information.
    - 5 - As someone looking for events, I want to be able to input a location so that I can see events in a specific area.
- **Sprint 2**
    - 20 - As someone looking for events, I want to have an event feed upon opening the app so that I can browse events in my area.
    - 8 - As someone looking for events, I want to be able to expand events in my feed to read more about the event details.
    - 5 - (Carried from previous sprint) As someone looking for events, I want to be able to input a location so that I can see events in a specific area.
    - 2 - As someone looking for events, I want to be able to mark an event as "attending" so that I can show the host and other users that I am attending.

- ○ 8 - As someone looking for events, I want to be able to search for keywords so that I can find the events that I am looking for.
- **Sprint 3**
  - ○ 13 - (Carried from previous sprint) As someone looking for events, I want to have an event feed upon opening the app so that I can browse events in my area.
  - ○ 8 - As an event host, I want to be able to create events so that I can share them with other people using the app.
  - ○ 5 - As an event host, I want to be able to edit and delete events so that I can keep my created events up to date.
  - ○ 8 - As an event host, I want to be able to see a list of the events that I have created so that I can keep track of them.
  - ○ 8 - As someone attending events, I want to be able to see a list of the events that I am attending so that I can keep track of them.
  - ○ 8 - As someone looking for events, I want to be able to see event addresses and locations on a map so that I can visualize which events are near me.
- **Sprint 4**
  - ○ 5 - As a user, I want to be able to edit my profile so that I can change the way my name and profile pic appear to others.
  - ○ 2 - (Touch-ups from previous sprint) As an event host, I want to be able to create events so that I can share them with other people using the app.
  - ○ 2 - (Touch-ups from previous sprint) As someone looking for events, I want to be able to expand events in my feed to read more about the event details.
  - ○ 2 - (Touch-ups from previous sprint) As someone looking for events, I want to be able to input a location so that I can see events in a specific area.
  - ○ 5 - As a UCSC student, I want to see real events happening at UCSC so I can find events in the area that interest me.
